Comments: (If possible, please reference section and/or page number in document ^{not} if applicable.)

I look forward in seeing a healthy growing environment for my children, grandchildren, great-grandchildren, great-great grandchildren in Las Vegas, Nevada. With allowing nuclear waste to be buried here, only sets up future problems unforeseen. Realizing nuclear waste needs to be disposed somewhere, I understand the urgency to find the "dumping" ground. Please take into consideration the profit other states make (or have made) producing products with nuclear fuel... why not consider each state take care of their own waste! We are "disposing" of Nevada families and their future by allowing nuclear waste to be dumped here for all eternity. Think about the future!

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
